

PHENOLIC LOCKERS

Phenolic Lockers are the material of choice when a high degree of design flexibility is desired or where durability and strength are required. These lockers are fabricated to stand the test of time. The dense components, combined with stainless steel brackets and fasteners, stand up to the most extreme conditions of moisture and humidity. Phenolic is impact, water, and corrosion resistant, and does not support bacteria.

The superior construction and materials used in the locker system make it adaptable to all types of facilities, including health clubs, country clubs, and executive washrooms. Available in the following standard styles: single-, double-, triple-, five-, and six-tier standard doors (single unit construction) and Z-Style Suit Locker (2 lockers per unit). Phenolic lockers can easily be customized.

Standard Features

- ½" doors, tops and bottoms
- ⅜" sides and backs
- Full length 16-gauge stainless steel piano hinge
- White interior
- Recessed handle
- 10 designer colors

Built-in locks available
