TIGHTEN ALL NUTS AND BOLTS AFTER YOU HAVE COMPLETELY ASSEMBLED THE LOCKER TO ENSURE A TIGHT STRONG FIT!

EXPLODED VIEW OF SINGLE TIER LOCKER

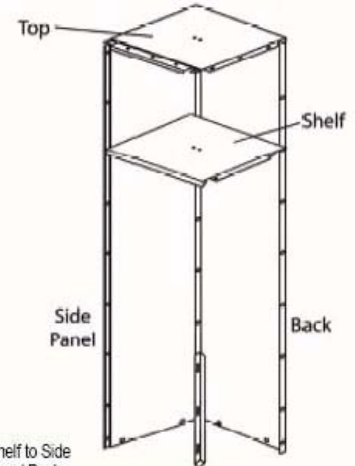

ASSEMBLY INSTRUCTIONS

1 Bolt Top to Outside of Back

2 Bolt Division (Side Panel) to Outside of Back and Outside of Top

3 Bolt Shelf to Side Panel and Back.
Bolt Leg to inside of Back and Side Panel

5

Bolt Double Pronged Ceiling Hook to Shelf and Single Prong Wall Hook to Division or Back

6

Bolt Bottom to inside of Back and Divisions

7 Bolt Locker Hole Cover Plate to inside of Handle or install Built-in Lock (optional)

8

Place Locker Door and Frame over edges of Side Panels and edges of Top and Bottom. Open Door and Bolt Door Frame to Divisions, Top and Bottom. If needed loosen Bolts on Legs to level locker and then retighten Bolts.

4

Bolt Division to inside of Back and outside of both Top and Bottom, bolt Back Legs to Back and corresponding Side.

FOR SAFETY PURPOSES, WE STRONGLY RECOMEND THAT ALL LOCKERS BE ANCHORED EITHER TO FLOOR OR WALL.
